

ABID BOUCHOUCHA SEIF EDDINE

Computer Science Engineering Student — Full-Stack Developer (React, Node.js, Next.js, MySQL)

Sousse, Tunisia — +216 55 125 061

Seifeddine.abidbouchoucha@ensi-uma.tn — LinkedIn: Seif Eddine Bouchoucha

Profile

Full-stack engineering student with strong experience in designing and building scalable web applications. Focused on clean architecture, REST APIs, authentication systems, and modern UI/UX. Experienced in delivering production-level SaaS and business platforms using React, Node.js, and MySQL.

Core Skills

Frontend

- React.js, Next.js, Angular
- Tailwind CSS, responsive UI systems

Backend

- Node.js, NestJS
- REST APIs, JWT authentication

Databases

- MySQL, MongoDB, PostgreSQL
- Data modeling optimization

Languages

- JavaScript, TypeScript, Python, SQL, C/C++

Education

ENSI Manouba

- Computer Science Engineering (2021–2025)
- Software Engineering, AI, Distributed Systems, Databases

ESSTHS — Hammam Sousse

- Preparatory Cycle in Mathematics Physics (2019–2021)

Baccalaureate

- 2019 — Score: 14.56 / 20

Languages

- Arabic — Native
- English — Professional
- French — Intermediate
- German — Intermediate
- Italian — Beginner

Soft Skills

Problem solving • Teamwork • Adaptability • Communication • Fast learning

Experience

GoSwitch — Full-Stack Developer (March 2025–August 2025)

- Built a scalable home-exchange platform using React, Node.js, and MySQL.
- Designed backend services for authentication, booking, and user management.
- Developed responsive UI with focus on performance and UX.
- Contributed to system architecture and database design.

TeamDev — Full-Stack Developer (June 2023–August 2024)

- Developed full-stack business applications in agile environment.
- Built authentication systems, dashboards, and dynamic interfaces.
- Worked on REST API design and backend integration.

Billcom Consulting — Database Intern (June 2024 - August 2024)

- Worked on SQL/NoSQL systems and database optimization.
- Improved query performance and data structure design.
- Assisted in backend data modeling tasks.

Projects

SmartWash — SaaS Platform (Freelance Project)

- Designed a full-stack SaaS car wash management system.
- Implemented authentication, admin dashboard, booking engine, and analytics.
- Built automated PDF invoices and notification system.
- Integrating online payment system before deployment.

Home Exchange Platform

- Built onboarding flows, messaging system, and property listings.
- Developed scalable frontend architecture with React.

Online CV Test Platform

- Developed CV submission system with online assessment module.
- Implemented authentication and admin dashboard.
